Equipment Sales, Rental, and Lease

Location: Troy, NY

Types of Equipment: Road-widening paving equipment, landfill compactors, excavators, bulldozers, wheel-loaders, compaction equipment, and motor scrapers and graders.

Financing: Competitive financing available

Overview

Park East Sales/North is committed to client satisfaction and was conceived in 1996 to provide reliable equipment on purchase, rental, or lease agreements. Contractors turn to Park East Sales/North when they need a special piece of construction equipment with knowledgeable staff behind it.

Challenge

When a contractor needs equipment for a job, Park East Sales/North rises to every occasion. That means having a special rental fleet and being able to transport the fleet to and from the job. Plus, constant servicing of equipment is a must. With its computerized reminders, Park East Sales/North services every piece of equipment at 250-hour intervals.

“Because we’re a contractor too, we know what our customers need.”

Solution

Whether we are renting, selling, or leasing, our solution is to provide the best. We deal with all the best equipment manufacturers, and most of our rental equipment is no older than five years. We have personnel who are specialists should our customers need service in the field. In our diversified fleet, we have about 375 machines, including road-widening paving equipment, landfill compactors, excavators, bulldozers, wheel-loaders, compaction equipment, and motor scrapers and graders.

Result

Construction companies and developers rely on Park East Sales/North whether they’re renting, buying, or leasing heavy construction equipment. We know their business-and they know our commitment to them.

“One reason for our success over the years is the continuity and commitment of our people.”
