

Park East Sales/South

Equipment Sales, Rental, and Lease

Location: Durham, NC

Types of Equipment: Road-widening paving equipment, landfill compactors, excavators, bulldozers, wheel-loaders, compaction equipment, motor scrapers and graders, drills, rock crushers, and other heavy-construction equipment.

Overview

Park East Sales/South is committed to client satisfaction. For almost a decade, it has provided reliable equipment on purchase, rental, or lease agreements. Contractors turn to Park East Sales/South when they need a special piece of construction equipment with knowledgeable staff behind it.

Challenge

When a contractor needs equipment for a job, Park East Sales/South rises to every occasion. That means having unique pieces of equipment and being able to transport them to and from the job, with the capacity to haul superloads. Constant servicing of equipment is a must. Park East Sales/South knows every nut and bolt of its equipment and routinely performs five types of service, from 250-hour to 2000-hour intervals.

**“Timeliness,
quality, and
service-this
is our
commitment.”**

Solution

Whether we are renting, selling, or leasing, our solution is to provide the best. We deal with all the best equipment manufacturers and have personnel who are specialists should our customers need service in the field. Our diversified fleet includes road-widening paving equipment, landfill compactors, excavators, bulldozers, wheel-loaders, compaction equipment, motor scrapers and graders, drills, rock crushers, and other heavy-construction equipment.

Result

Construction companies and developers rely on Park East Sales/South whether they're renting, buying, or leasing heavy-construction equipment. We know their business-and they know our commitment to them.

“Because we're a heavy-construction contractor too, we know what our customers need.”
